Experience

Web Development Intern

Solalla Web Services (2016)

- Primarily self-directed remote work on an admin app, built with AngularJS, to facilitate quality control for a fisheries information system.
- Implemented CRUD functionality through interactions with data from a RESTful API, written in Django.
- Tools Used: Grunt, Yeoman, Bower, Underscore

Tutor

Truman College (2013 - 2014)

- Tutored and advised 15-20 diverse ESL, GED, and credit students per week in College Success, grammar, writing, pronunciation, and reading, with an 82% retention and 63% success rate.

Organizing Intern

ONE Northside (2012)

- Developed relationships with 100 members and trained 20 leaders on outreach and strategy.
- Coordinated a city-wide campaign on TIF (Tax-Increment Financing) reform alongside other community organizations and unions in a coalition.

Projects

LogLegal - github.com/midoribowen/LogLegal

An Android logbook app where users can enter and track legal incidents. Data is stored in a Firebase database.

Shake It Up!

play.google.com/store/apps/details?id=com.epicodus.shake_it_up

An Android app where a user can enter a location and decide on their evening plans for a place for drinks, dinner, and a fun activity.

eCommerce Store - michael-scott-paper.herokuapp.com

An online store built with EmberJS where users can add items to a cart and check out. Designed using the Ember Paper library.

YesChef! - github.com/midoribowen/kitchen

A restaurant POS system built for tracking inventory - built with Java, Spark, and PostgreSQL

Education

Epicodus - Java/Android Development/JavaScript
Portland, OR - 2016

Beloit College - B.A. (International Relations)
Beloit, WI - 2011
